DESIGN PORTFOLIO

ITonlinelearning Ltd.

<https://mh-portfolio-lemon.vercel.app/>

2024

- Embedded documents within the HTML documents by using Iframe tags to specify inline frames whilst creating and adding links, images, and other media to the website.
- Utilised HTML to develop the website content including a landing page with three additional pages namely contact, about, and FAQ.
- Created, edited, and manipulated web typography as well as created and embedded link lists and tables into pages.
- Maintained site formats and structural integrity by defining elements and content using the CSS3 box model.
- Kept site load times to a minimum by effectively implementing CSS3 syntax to style website pages.
- Developed a personalised website as part of the web development programme final assignment.
- Utilised multiple style attributes to set the style of HTML elements and therefore style webpages.
- Explored various website hosts taking into consideration type, security, features, and pricing.
- Determined the theme of the website in order to be eye-catching and user friendly.
- Used CSS3 Dynamic Properties using transformations, transitions, and animations.
- Created HTML webpages using HTML Editors Visual Studio and Brackets.
- Selected a subdomain in order to obtain the domain URL

Thank you for your
consideration.

WORK EXPERIENCE

Heavy Plant Operator | Wienerberger

2005 – 2023

- Loaded materials into hoppers, ensuring timely and efficient delivery to meet fast-paced production targets.
- Managed delivery and dispatch requests, coordinating with teams to ensure the smooth flow of materials and adherence to schedules.
- Maintained a clean and organised quarry environment, upholding high standards of health and safety to minimise risks and ensure compliance with regulatory requirements.
- Operated heavy machinery, including excavators, bulldozers, and cranes, to transport and position materials effectively, optimising production efficiency.
- Conducted routine inspections of equipment to identify and address any maintenance issues, ensuring safe and uninterrupted operations.
- Collaborated with team members to monitor inventory levels and replenish materials as needed to prevent production delays

Yard Foreman

- Controlled and organised responsible stock, ensuring inventory levels were accurately maintained and efficiently managed to meet production and operational needs.
- Managed delivery and despatch requests, coordinating with various departments and external suppliers to ensure timely and accurate delivery of materials and products.
- Maintained site security, overseeing security measures and procedures to ensure the safety of personnel, equipment, and materials on-site.

FLT Driver

- Precisely loaded and unloaded products into and out of a kiln, ensuring proper handling to maintain quality standards and prevent damage.
- Met production targets consistently, efficiently managing time and resources to ensure that daily and weekly goals were achieved without compromising safety or quality.
- Maintained a high level of health and safety in a busy production environment, adhering to safety protocols, conducting regular safety checks, and addressing any potential hazards to ensure a secure working environment for all staff.

Best Connection | Production Operative

2004 - 2005

- Travelled to various business locations to perform process tasks, ensuring operational procedures were followed to maintain quality standards.
- Collaborated with team members to meet production targets and resolve any issues that arose during the process.
- Assisted with the setup and operation of production machinery, ensuring efficient and safe completion of tasks.

Farmer and Rann Builders | Bricklaying Apprenticeship

2002-2004

- Worked as part of a property building team, assisting with bricklaying and construction tasks while attending college to learn trowel trades and gain hands-on experience in the construction industry.
- Applied knowledge of construction techniques and safety protocols to contribute to building projects, ensuring high-quality craftsmanship and compliance with project requirements.
